TEAIS ADITERM, Additive for mortars with radiant floors.

Description

TEIAS ADI-TERM is a liquid additive which is used for compacting mortars on radiant floors. The use of TEAIS ADI TERM increases the thermal conductivity making the mortar more compact.

Aplication

TEAIS ADI-TERM is used for compacting mortars on floors with radiant heating.

Surface preparation

No neccesary.

Modes of application

To homogenize the content of the package tightly.
- Add the mixing-water in a percentage from 1 to 1,5%.

Clean up

The tools used must be cleaned with plenty of water.

Data sheet

AppearanceTranslucent liquid

Density1,08 kg/lt

Performance

1,5% of cement weight.

Storage

3 yearts in their original packages keeping the away from the weather and stored in cool and dry places.

Security

Supplementary information:

EUH208: Contains . May produce an allergic reaction.

EUH210: Safety data sheet available on request.
