

# TEAIS GRAP DENTADA, STAINLESS STEEL TOOTHED PIECES FOR BLOCKING CRACKS AND FISSURES.

## Description

TEAIS GRAP DENTADA is composed of pieces of stainless steel in toothed shape specially designed for blocking static cracks and fissures

## Aplication

For blocking fissures and cracks on faced brick facades, concrete floorings, concrete forged blocks, etc...

## Surface preparation

The surface where the place is placed must be clean, free of dust, loose particles and firm, They must be static fissures.

## Modes of application

Make the cuts by a diamond grinding disc for the placement of the pieces of TEAIS GRAPAS DENTADAS.

- Remove the dust, particles, etc...
- Apply TEAIS FIGRAP mortar filling the hollow where the piece will be placed.
- Place the piece leaving at least 2 cm towards out-side.
