# MORIS RAPIDO, Quick Thixotropic mortar of hardening setting

## Descripción

Thixotropic mortar without retraction specially designed for repairing. Suitable for the restauration of damaged surfaces by iron oxide spreading. It protect the metallic armours combined with TEAIS PROTECOR and working properly with concrete in the face side. It has a big resistance from the compression. Colour: cement grey.

## Aplication

For repairs requiring swiftness , in filling voids, in pavement repair, on bolt anchors, especially in ventilated facades.

## Surface preparation

Must be clean, without grease , no dust or loose parts, compact and conveniently wet.

## Modes of application

## Clean up

With a lot of clean water.
