PROTEN, PROTECTOR AGENT FOR MARBLE, GRANITE AND SLATE SURFACING.

Description

PROTEN is protector liquid for countertops made of marble and granite. The application of PROTEN form a protective film that repels greases and oils both cold and hot avoiding stains on the protected surface.

Aplication

The application of one coat of PROTEN protects marble and granite surface from stains of greases, oils and other agressive substances. PROTEN is suitable for the protection of countertops in bathrooms and kitchens penetrating into the substrate and without leaving a visible coat removing greases and oils both cold and hot, avoiding stains on the protected surface.

Surface preparation

The surface where PROTEN is applied on must be clean and dry.

Modes of application

Shake the product before applying.
- Apply on the support by brush or short nap roller.
