

LASTOIS TECHUMBRES, HIGH PERFORMANCE ELASTOMERIC WATERPROOFING FOR ROOFS

Description

Based waterproofing elastomeric acrylic copolymers. It is ideal for waterproofing visitable roofs, roofing, fireplaces edges, etc. It can be reinforced with VELOAIS. It has a high adhesive strength and easy application. It is applied by brush or roller, as many hands as necessary to achieve a thickness of 1 mm. Colors: black, red, tile, white, green, brown and gray.

Application

It is used for waterproofing decks, roofs and chimney borders. It can be reinforced with VELOAIS.

Surface preparation

The background must be dry and no trace of contaminating particles, by priming conveniently.

Modes of application

Stir the contents of the bucket until the product is completely homogeneous.

- Apply a primer according to the nature of the support.
- In vitrified supports ANDER B should be apply as primer to open porosity and improve the adhesion of coating.

- In case of porous supports a first coat of LASTOIS TECHUMBRES diluted in water can be applied as primer.
- Once the primer dries, apply a first coat of LASTOIS TECHUMBRES in which you can place a fiber mesh as FIBRAIS.
- Should be allowed to dry well before proceeding to the application of the next coat.
- Then the next layer is applied, giving several coats until the total consumption of 2 kg/m² is get, always let every coat dry correctly before applying the next one. .
- The surface waterproofed with LASTOIS TECHUMBRES can't have standing water.

Clean up

Clean using large amounts of water, when is dry remove mechanically

Data sheet

Colour/sblack, red tile, white and grey.

Density 1.32 Kg/L ± 0.05 g/cm³ at 20°C.

Viscosity 20.000 ± 10.000 mPa.s

Dry upon touching < 30 min.

Elongation until breaking point > 400%

Solid content > 60%

Resistance to traction > 15 kg/cm² (UNE 53.165)

Folding capacity under cold temperature will not crack (UNE 53.358) at -5°C

Composition Aqueous emulsion based on styrene acrylic copolymers

Performance

2 kg per sqm

Storage

It is recommended to store this product for 2 years in tightly closed original packages in a cool dry place at temperatures above 5°C.

Security

Indications of danger:

H412: Harmful to aquatic life with long lasting effects.

Prudence advice:

P273: Avoid release to the environment.

P501: Dispose of contents/container in accordance with local/regional/national/international regulation

Supplementary information:

EUH208: Contains 2-octyl-2H-isothiazol-3-one, Mixture of: 5-chloro-2-methyl-4-isothiazolin-3-one [EC no. 247-500-7] and 2-methyl-2H-isothiazol-3-one [EC no. 220-239-6] (3:1). May produce an allergic reaction.
