

## Descripción

Resin finishing concrete printed PAVIMPRES pavements , which grants them very decorative satin finish. colorless

## Aplication

It is applied as finishing resin for polished concrete pavements and stamped concrete pavements. It provides a remarkable aesthetic improvement, protects the surface and improves durability.

## Surface preparation

The support on which the product is applied must be clean and dry. Free of dust and loose particles, firm and consistent.

## Modes of application

- Mix the content of the package before using the product.
- Apply with a paint brush, roller or gun.
  - Apply RESIMPRES in a single coating directly onto the pavement to be protected, by thoroughly spreading the

product. If two coatings are required, the second layer is applied after allowing the first one to dry.  
- Apply directly without diluting.

## Clean up

With Dissoluais N or with Cleaning Solvent

## Data sheet

Colour/s Translucent

Density 0,89 kg/lt

Drying time 24 hours

Temperature of work 8 to 25°C

## Performance

8 sqm per litre

## Storage

2 years in their original packaging tightly closed, protected from the weather and stored in a dry place.

## Security

## Indications of danger:

H225: Highly flammable liquid and vapour.

H304: May be fatal if swallowed and enters airways.

H315: Causes skin irritation.

H336: May cause drowsiness or dizziness.
