

# RELAIS SILOXANO, acrylic render finish with aggregate and siloxane for indoor and outdoor

## Descripción

Stony paste to scratch based on siloxane acrylic resins, waterproofing and brethable for indoors and outdoors.

Render with high decorative effect that is available with several particle-size and allows different textures. Special for facades, can be applied on several supports such as mortars, concretes, paints, etc.

## Aplication

Cladding of facades, patio, stairwell both interior and exterior. Special for facades on several supports such as mortar, concrete, paint, etc.

## Surface preparation

The surface must be clean, free of greases, oils, loose particles. Mortars and concretes must be cured for at least 28 days.

## Modes of application

Homogenize the product properly stiring it manually or by mechanical means with a low-revolution electric mixer (300-500 rpm).

- Apply one or two layers of primer by brush or roller according with the absorption of the support.
