

## Descripción

Fast dry-time antirust primer for the protection of metallic surfaces before its finish with AUT AIS. Grey colour. Solvent: DISOLU AIS.

## Aplication

As a primer and protection of car bodies, truck cabins, vans, bikes, farm machinery, tractor, etc.

## Surface preparation

It must be clean, free of dust, greases, oils or other polluting agents which avoids a correct adherence on the supports and its perfect finish.

## Modes of application

Stir well the content of the package before using.

- The surface of applycation must be clean, free of dust and to achieve this a suitable mechanical cleaning must be done by brushing, sanding or jets of particles removing the rust from metal. Also, the dust or any substance that avoids the correct adherence will be removed completely.

Apply one layer diluted from 10 to 30% on weight with DISOLU AIS by sprayer gun.

Allow 30 minutes (minimum) before applying the second layer in the same way.

Protect with a finis based on TEAIS synthetic enamels.

- For a correct dry, don't apply with high humidity (>75%). Is recommendable to do the application in environments with a temperature up to 8°C and bellow 35°C.

## Clean up

With grease-based solvent DISOLUAIS while the product is wet.

## Data sheet

Density 1,20 Kg./Lt. +- 0,05

Solid content in volume 39 ± 1 %

Viscosity 150 +- 30 Sec.

Hard dry < 1 hr at 20°C and 65% RH

Colour/s grey

Dry for repainting 30 minutes at 20°C and 65 RH

Temperature of work from 8 to 35°C

## Performance

4 sqm per litre.

## Storage

2 years in their original packages, tightly closed, stored in a fresh and dry place and protected from the weather.

## Security

## Indications of danger:
