ANTIGRAFITAIS, ANTIGRAFFITI PROTECTOR FOR STONE AND MARBLE.

Description

Protector of surfaces made of stone or marble both porous and matt that facilitates the subsequent disposal with cleaning products such as GRAFITAIS.

Aplication

It is used for protecting several supports from graffitis allowing an easier cleaning of the support with a suitable cleaning agent.

Surface preparation

The surface must be perfectly clean, free of dust or other contiminants. It must be moistened and the moisture must be decreasing in the application time.

Modes of application

Homogenize well the product before applying.
- Apply on the support once it is moistened (with tendence to refer the moisture).
-The application is done by short nap roller.
- Apply two layers letting rest at least 1 hour between them.
