

IMPRIMACION XP, ANTICORROSIVE PRIMER BASED ON IRON OXIDE FAST DRYING

Descripción

Fast dry primer for structures made of iron or steel with barrier effect. Repaintable with synthetic enamels type ESMAIS after a dry-time of 4 hours. Colours: red and grey.

Aplicación

It is used for protecting against corrosion on metallic surfaces made of iron, steel, light alloys, etc. It is specially formulated for applying by spray gun. Fast dry time.

Surface preparation

The surface must be clean without dust neither greases, oils or other polluting agents that avoids a correct adherence on the supports.

Modes of application

Homogenize the content of the package before applying.

- Once cleaning up, dry, free of rust and completely free of grease one layer must be applied by gun using DISOLUAIS SOLVENT.

- After two hours a second layer of primer can be applied.
- Apply a finishing synthetic enamel after 4 hours. The most suitable solvents are ESMAIS and ESMAR.

Clean up

With DISOLUAIS solvent while the material is wet.

Data sheet

Density 1,54 kg/lit +/- 0,05

Dry film thickness 35 microns

Dry for repainting 4 hours at 20°C y 65% RH

Solid content in volume > 63%

Temperature of work from 5°C to 30°C

Colour / sred and grey

Performance

8 sqm/l dry coat of 50 microns

Storage

2 years in their original packages tightly closed, protected from the weather and stored in cool and dry place.

Security

Indications of danger:

H226: Flammable liquid and vapour.
