The number of the times for painting is two (minimum), to repaint is necessary let dry de layers between each application.

-Thin layer must be applied in order to make easier the dried of the product.

Clean up

With our solvent DISOLUAIS.

Data sheet

Density Variable, depending on the color

Solid content in volume 50 ± 1 %

Dry for repainting 8 a 10 Hours /20°C/65%

Vehicle alkyd resins

Pigments titanium dioxide and other by color

Aspect matt or glossy, smooth and continuous.

Colour/according to color chart.

Temperature of work 5 to 30°C

Performance

8sqm per layer depending the support absorption.

Storage

2 years, in original packagings, properly closed, protected from weather and stored in a cool and dry place.
